Projects & Research

AI Powered Cost Analysis for Textile Production Sep 2024 – May 2025

Senior Design Project, VIT-AP University

- Engineered an AI cost analysis tool with XGBoost + genetic algorithm RF, achieving 94.5% classification and $R^2=0.94$ regression.
- Implemented SHAP-based explainability to improve stakeholder trust.

Blood Coagulation Detection (CNN) Mar 2024

Research Project

- Built CNN with TensorFlow/Keras for abnormality detection; achieved 92% accuracy.
- Conducted research on CNN-based blood coagulation analysis with methodology documented for academic use.

Multilingual NLP Detection Nov 2023 – Feb 2024

Personal Project

- Developed LSTM/Transformer-based multilingual classifier for 20+ languages with 95%+ accuracy.
- Optimized preprocessing and hyperparameters for robustness across languages.

Smart E-Commerce Platform with Dynamic Pricing Dec 2023

University Project

- Built React.js + Node.js platform with AI-driven XGBoost + SHAP dynamic pricing, improving operational efficiency by 30%.
- Deployed MongoDB backend with sub-second response times on cloud infrastructure.

Education

VIT-AP University Jul 2021 – Jun 2025

B.Tech in Artificial Intelligence & Machine Learning

CGPA: 7.65/10

Coursework: Machine Learning, Deep Learning, NLP, RL, Databases, Software Engineering.

Certifications

Oracle Cloud Infrastructure 2025 Certified Generative AI Professional (Valid Sep 2027)

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate (Valid Aug 2027)

Responsible AI Systems (NPTEL, 2024)

AI for Cyber Security (IBM Qradar, 2023)

Research Interests

Machine Learning, Deep Learning, Computer Vision, NLP, Explainable AI, AI Systems

Skills

Programming & Tools:

Python, Java, SQL, JavaScript, HTML, CSS, Jupyter, Figma, Hugging Face, n8n, Docker

Libraries & Frameworks:

TensorFlow, Keras, PyTorch, scikit-learn, XGBoost, OpenCV, SHAP, CUDA, React.js, Node.js, Flask, REST APIs

AI & Data:

Supervised/Unsupervised ML, CNN, LSTM, NLP, RL, Data Analysis, Visualization

Databases:

MongoDB, MySQL, PostgreSQL

Technical Writing

Technical documentation, research reporting, system design drafting
